Reference: Letter of Recommendation for Conceptual Consultants & Associates

To Whom it May Concern,

The purpose of this letter is to provide a reference for Conceptual Consultant & Associates. I have a consistent working relationship with Stephen Taormino, Jack Taormino from Conceptual Consultants & Associates as CC&A has provided my Business with a Website Development. CC&A has also assisted our company in ideas for Marketing. I have found that CC&A has been very nurturing thru this process. D&T Welding has attempted this process with various companies to no avail. CC&A has made this process stress free. In conclusion CC&A are very professional and continue to make changes and meet our growing Marketing needs.

Sincerely,

Tammy Lunn, President
